EMPLOYMENT OPPORTUNITY NOTICE

Saratoga County Department of Health

Job Title: PUBLIC HEALTH ENGINEER III

Salary Range: \$93,494 – 120,135* (*Salary range provides earnings potential, which is based on years of service employed with Saratoga County in specified title)

Work Location: 6012 County Farm Road, Ballston Spa NY 12020 (On-site)

Classification: Competitive (**Exam Required**)

The Saratoga County Department of Health seeks an experienced candidate for a full-time Public Health Engineer III. The successful candidate should have thorough knowledge of the principles and practices of public health engineering and a strong background in environmental health activities.

Job Description

The work involves responsibility for the planning, administration and performance of public health engineering duties concerned with the execution of one or more phases of the environmental health program. The work entails advising public officials or individuals on problems requiring professional public health engineering expertise, including measures for improvement and compliance with legal requirements, assisting in the promotion of public health through application of environmental health practices, assisting in the enforcement of the provisions of local and State health matters and investigations of related conditions and problems. The work is performed under general supervision of the Commissioner of Health or the Director of Environmental Health with leeway allowed for exercise of independent judgment in carrying out details of the work. Supervision is exercised over the work of subordinate technical and professional employees. Does related work as required.

Minimum Qualifications (at least)

A) License to practice as a Professional Engineer (PE) in New York State; **OR**

B) Possession of a Bachelor's Degree in Engineering with at least three (3) years of full-time, hands-on experience in environmental health activities.

(Degree must have been awarded by a college or university by a regional, national, or specialized agency recognized as an accrediting agency by the US Department of Education/US Secretary of Education. If your degree was awarded by an educational institution outside the United States and its territories, you must provide independent verification of equivalency. A list of acceptable companies who provide this service can be found on the internet at <http://www.cs.ny.gov/jobseeker/degrees.cfm>. You must pay the required evaluation fee.)

SPECIAL REQUIREMENT(S): Candidate must possess, and maintain, a clear and valid New York State Driver's License appropriate for the type of vehicle to be operated, in meeting the necessary transportation needs of the job.

The minimum qualifications for Public Health positions are mandated under New York State Health Code, Rules and Regulations (NYCRR) Title 10, Part 11. Participation in Public Health emergency preparedness drills and responses may be required. Select immunizations may be required at time of appointment or at any time throughout the course of employment according to New York State Department of Health or other oversight agency requirements.

Typical Work Activities (*Illustrative)

- Provides oversight of the operation of the Environmental Health Division by monitoring the activities of and providing technical assistance to Public Health Specialists and Technicians relative to a variety laws, rules and codes;
- Investigates, reports on and makes recommendations concerning public water supplies, sewage systems, bathing beaches and swimming pools, stream pollution, sanitary conditions of camps, hotels or boarding houses, food, restaurant and general sanitation and public health of environmental nuisances;
- Responds to and conducts investigations into hazardous material and oil spills, and other problems;
- Confers with local officials relative to public health engineering problems;
- Interprets the results of laboratory examinations of water, sewage, industrial wastes and other samples;
- Reviews subdivision plans to determine compliance with State environmental health standards;
- Maintains relationships and cooperates with State and Federal agencies concerning environmental and sanitary engineering programs and problems;
- Prepares a variety of technical reports including recommendations for correction of environmental engineering problems;

DEPARTMENT OF HUMAN RESOURCES
